## Academic Project -

- Stock & Billing System for Ration Provider Shop (March 2020)

In this project we built a windows software for individual shop by using c#.net and MYSQL. The owner could keep track of sales, stock, invoices and customers.

- Online Hall Reservation System (March 2017)

In this project we built a website to manage booking/ reservations of hall. Users could able to check availability of the dates, could opt extra services provided, could pay advance amount for the bookings on the website. Website admin could manage the bookings and cancellations from admin panel.

Technologies Used : HTML, CSS, PHP, MYSQL.
